

Meet a....

- [Transportation Logistics](#)
- [Transportation Specialist](#)
- [Logistics Engineer](#)

Response Sheet

- [Transportation Logistics](#)
- [Transportation Specialist](#)
- [Logistics Engineer](#)

Professional resources

- [Amazon warehouse](#) tour (in person & virtual)
- [Your Future in Transportation](#) - from The National Academies of Science, Engineering, and Medicine
- [Intro to Structural Engineering and Paper Bridge](#)
- [Types of Engineers](#) - career information with real-world engineering projects
- [What do Cargo & Freight Agents do?](#)
- [What do transportation engineers do?](#)

Extension Activities

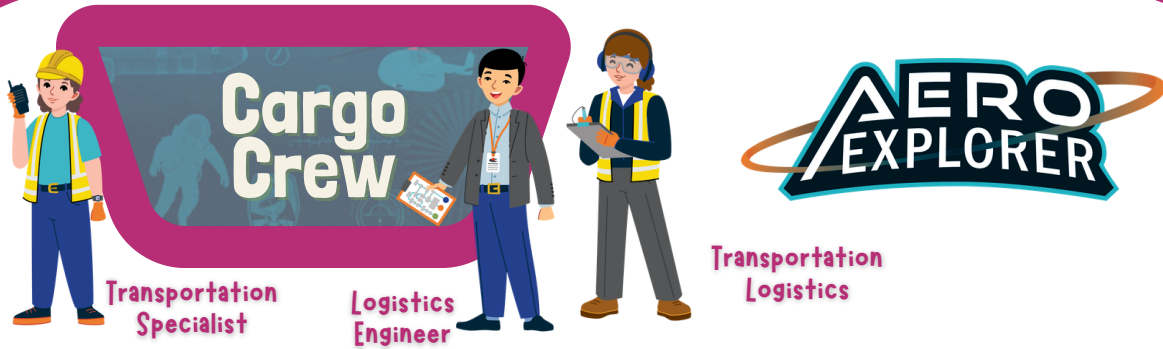

- Logistics Game - Expand on the Aero Explorer experience by having students deliver a package from start to the final consumer. This could be using real objects in your classroom, drawings, or digital media. Be sure to have students include who is doing each job.
- [Transport observation](#) - During recess, have students collect data on the number and types of transport they observe.
- [Careers in Public Transit](#) - A guide for Elementary Teachers (worksheets, coloring books, role-play (“Who Am I?”), design a ticket activity)
- [Alphabet Letter Printing worksheet](#) (scroll down)
- [Engineering activities & programs](#). Check out:
 - Programs (Chats with Change Makers, Engineering week)
 - Engineering Activities (there are lots!!)
 - Engineering Careers (all in one place!)
- Bridges
 - [Construction Educational Resources](#)
 - [Bridge Builder Simulator](#) app
- [60 Fun Transport Activities for Kids](#)
- Talk to the school principal or cafeteria manager about the systems needed to feed an entire school for breakfast and lunch

Name: _____

Transport Observation
Count how many transport vehicles you observe.

Delivery van	Airplane	Train	Truck	Bus

Write about your transport observation.
